MAWD COMPLETES ACQUISITION OF BOYCE & BYNUM PATHOLOGY PROFESSIONAL SERVICES

LENEXA, KS – [MAWD Pathology](http://mawdpathology.com), a Lenexa based provider of pathology and laboratory services, today announced their acquisition of [Boyce & Bynum Pathology Professional Services](http://boyceandbynum.com) (BBPPS) based in Columbia, Missouri. Together, MAWD and BBPPS have over 110 combined years of experience as leaders in anatomic, clinical, and molecular pathology professional services.

“Welcoming to the MAWD team our Boyce & Bynum colleagues further strengthens MAWD as the region’s premiere pathology group,” said Dr. Samuel Caughron, President and CEO of MAWD. “It establishes MAWD nationally as a leading private, wholly physician-owned practice with 58 pathologists in virtually every subspecialty serving clients across the Midwest,” he continued. “We are excited to bring together two historic groups to find new synergies in our mission of providing excellent care for patients and unmatched service to our partners.”

“BBPPS looks forward to our future with MAWD,” said Dr. Michael Curry, President of BBPPS, “Both practices share common values and are committed to providing the highest quality service for clients and excellent pathology for patients. United with MAWD our group is poised to serve the region for years to come.”

Organized and operating as a division of MAWD Pathologists in central Missouri, the BBPPS pathologists will continue to provide all current services. Current and future clients and their patients will benefit from the combined practice as it will be able to deliver expanded operational and scientific services, including broader pathology expertise.

About MAWD

MAWD Pathology is the largest provider of pathology and laboratory professional services in the Midwest with locations throughout Missouri, Kansas and Oklahoma. MAWD’s team now includes over 55 pathologists caring for over 250,000 patients a year. MAWD offers unmatched and diverse advanced subspecialty expertise and employs many of the region’s recognized leaders in subspecialty pathology. MAWD is proud to be privately owned and managed by its pathologists and to have served the region for over 50 years.

About Boyce & Bynum Pathology Professional Services

Established in 1965, Boyce and Bynum Pathology Professional Services has delivered high quality private anatomic, clinical and molecular pathology professional services to Missouri and Arkansas for over 55 years. Boyce and Bynum pathologists have been longstanding committed partners serving the needs of hospitals, specialty clinics, physician offices, long-term care facilities, and the communities in which they practice.
